Auditor's responsibility under generally accepted auditing standards (GAAS)

Description

The financial statements are the responsibility of the Town. Our audit was designed in accordance with GAAS in the U.S. and provides for reasonable rather than absolute assurance that the financial statements are free of material misstatement. Our responsibility is to express an opinion about whether the financial statements prepared by management with your oversight are fairly presented, in all material respects, in conformity with U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities.

The audit of the fiscal year 2019 financial statements has been completed and we have issued an unmodified opinion.

Required Communications

Communication

Auditor's responsibility under Government Auditing Standards

Description

In addition to the GAAS responsibilities, we are required to issue a written report on our consideration of internal controls and identify significant deficiencies, including material weaknesses, if any. Our report does not provide assurance on internal controls. We design our audit to provide reasonable assurance of detecting material misstatements resulting from noncompliance with provisions of contracts or grant agreements that have a direct or material effect on the financial statements. We issued a written report on the results of these procedures; however, our report does not express an opinion on compliance.

No material weaknesses identified, no significant deficiencies identified.
